MEDIA RELEASE

interVivos launches Summer 2019 Mentorship Program

Registration for Protègès Now Open

Edmonton, AB, June 3, 2019: interVivos is launching its Summer 2019 Mentorship Program Wednesday, June 19, 2019. interVivos is inviting ambitious professionals from across the capital region to take part in its ever-popular mentorship program and have the opportunity to connect with highly sought-after mentors.

interVivos has organized close to 20 mentorship programs since the society started in 2006. This year interVivos will provide protègès the opportunity to be paired with successful women with varied careers, backgrounds and perspectives.

The Mentorship Program launch is a unique and engaging concept. Protègès and mentors will have the opportunity to meet with all the participants, discuss what their goals are in person, and then choose who the best match would be for them.

“Allowing our participants the choice, increases the likelihood that the partnership will be fruitful for everyone involved,” says Board President, Zohreh Saher. “We are especially excited to showcase the talented and successful women in our community with our first all-female mentor group.”

The program launches June 19 and begins in early August. It runs for 6 months and matches are expected to meet at least three times. If you’re an ambitious professional in the capital region, you can learn more about the program and register as a protègè by visiting <https://www.eventbrite.ca/e/summer-2019-mentorship-program-protège-registration-registration-62609732395>
